**Re: Request for Review of USAC-issued Service Start Date**

(CC Docket No. 02-6)

The original application SLD Form 471 filed in February 2004 was denied due to a handling error on the part of FedEx. As soon as a notice of denial of the discounts was received, we began discussions and submitted requests for information with the Schools and Libraries Division of USAC (E-Rate program administrator). After further denials, a request for waiver was filed in March 2005 with the FCC (Federal Communications Commission), the overall government liaison for the E-Rate program. The waiver requested that the application be approved since the original filing had been delayed due to circumstances beyond LVCS control.

On May 19, 2006 the FCC issued an order (FCC Order 06-54) that USAC allow errors regarding deadlines and other clerical mistakes be corrected.

Beginning in August 2006, SLD began their requests for information from LVCS regarding the review of the 2004 E-Rate applications. Over the next 3 months we responded to numerous requests by USAC regarding the 2004 funding year. All requests were answered within the time frame required and as a result USAC issued a funding commitment on November 13 granting assistance in the amount of \$106,517.52.

We filed the Form 486 in a timely manner. The FCDL date was 11/13/2006 and the Form 486 was sent in early January. We then received a 1/18/2007

Service Start Date. We attempted to invoice, and the invoices were denied. We are appealing this to all of the above circumstances and reset the Service Start Date to 7/1/2004, so that we may begin the invoicing process.
